

American Telecommunications Certification Body Inc.

6731 Whittier Ave, McLean, VA 22101

November 14, 2007

RE: Aquatron Robotic Systems Ltd.

FCC ID: VQBRC0100100

After a review of the submitted information, I have a few comments on the above referenced Application. Depending on your responses, kindly understand there may be additional comments.

1) Test Report cites only worse case is reported. The worse case duty factor appears to be only 4.81 dB correction for 38.75 ms + (100 ms – 81.25 ms) 57.5 ms for certain button combinations while the report utilizes 8.79 dB. See various plots shown. Since the unit only passes by 3.1 dB using the 8.79 dB factor, it does not appear to meet the limits using the worse case duty factor. Please review.

Timothy R. Johnson Examining Engineer
